## DECLARATION OF JUDITH L. KOSLOSKI

I, Judith L. Kosloski, declare as follows:

1. With respect to the 2020 Presidential Election, I served as Clerk of Central Lake Township, Michigan. I have personal knowledge of the contents of this Declaration and if called as a witness I could and would testify competently as to their truth. I have served as Township Clerk from 2006 to 2008, ran in 2012 and won and have been sitting as Clerk since that time.
2. My responsibility as Clerk is to guarantee and safe and legal election. While I could not be in the precinct during Election Day, as I was on the ballot, I was in my office to assist the election inspectors in any way I could.
3. On Election Night, we close the poll after all absentee ballots have been entered into the tabulator. We take our ISD cards out of the machine and take them, the security fob and the results of the Electronic Poll Book to the County Clerk's office that night.
4. I received my ISD cards when I went to the County Building and received my Precinct Kits from Connie Wing prior to the election and never received nor was made aware of an update as I did not need any updates.
5. On Thursday, November 5, 2020, I was contacted by Connie Wing, of the County Clerk's Office, and asked that I bring my tabulated, locked ballot container and tabulator to the Clerk's office for retabulation. Because of time constraints the retabulation did not occur and I was asked to return on Friday, November 6, 2020. I was given the ISD cards and security fob for the tabulator, we set it up and the retabulation began at 9 a.m. We finished at 8:55 p.m. The retabulation was done in the presence of the Antrim County Board of Canvassers, the Antrim County Sheriff along with my Deputy Clerk, Patricia Marshall. At the completion of retabulating all of the voted ballots from November 3, 2020, I asked if the Board of Canvassers was ready for me to close the poll and run the tally tape, which I did. It was at this time that I noticed that the number of votes cast on November 6, 2020, had changed from the tape of November 3, 2020. I stated to the Board that the numbers had changed. The Board did not respond to my comment. To this date, I still do not know why Central Lake Township was the only township that had to retabulate. Other Township Clerks asked me why I had to do this and I could not explain.
6. On November 26, 2020, I was contacted by a legal counsel and asked if I would let a cyber forensics team look at my tabulator and other election equipment and I agreed. I met with team members on Friday, November 27, 2020, at the Government Center, gave them access to the equipment and while a comparison was done with the tape from Election night and the second running of the voted ballots completed on Friday, November 6, 200, they showed me a discrepancy on the tape of 600+ votes on the Ellsworth School Board contest alone. Ellsworth Township had only six voters eligible to vote on that contest and three exercised their right to vote. Other races had discrepancies of one or two votes between the first and second tape.
7. The other noted change was in the Marijuana Proposal. The result went from a tie vote to winning by one.

8. Pursuant to 28 U.S.C., Section 1746, I declare under penalty of perjury under the laws of the United States of America, that the foregoing is true and correct to the best of my knowledge.

Dated: November 27, 2020

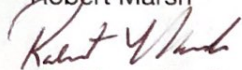

Declaration by Robert Marsh

I Robert Marsh declare the following:

On November 3, 2020 I was at the Star township polls location, at the Star township hall located at 6775 Alba Highway Elmira, Michigan when the polls closed. I requested a copy of the election results tape. Upon examining the tape I could see that President Donald Trump had clearly won the presidential race in Star township. I believe the numbers were 462 for President Trump with Joe Biden receiving 161 votes. Normally when a candidate has such a large lead it is safe to assume whom the winner would be. Early the next morning my wife received a phone call from a friend asking what happened to Antrim county going blue, meaning Democrat. At 7:36 that morning I was texting our state representative Triston Cole to find out if those were the actual results. At that time Triston advised me that the numbers are not right. Antrim county was reporting the 462 votes had now been credited to Joe Biden and President Trump had only received 10 votes.

I have since turned over my printout of the election results to the investigation team and will cooperate full to the best of my ability as every American should. In my opinion I find it hard to believe that there is not fraud involved in the election tabulations. Furthermore it is and should always remain the responsibility of the voters to determine whom should lead this country and not any political party or special interest groups.

Respectfully submitted  
Robert Marsh

Star Township Supervisor

November 27, 2020

I Star Township Supervisor Robert Marsh have turned over a printout of the general election results from November 3, 2020 to the election investigation team. I was present when this was printed from the ballot machine. I requested a extra printout as I was on the ballot.

Robert Marsh

A handwritten signature in cursive script, appearing to read "Robert Marsh".

Star Township Supervisor

My name is Kenneth Sprague

I am 43 years old and reside 3992 Stover , in Kearney township. I work as a handy man. I am speaking to Michael Lynch. We met in downtown Bellaire.

On November 3, 2020 I went to the Kearney township hall. It's was about 9:00. I went to vote. There were about 10 people lined up. After i was there 5 minutes it seemed like there were 50 people in line. They were people inside. After about 15 minutes a woman came out of the township hall. She worked there but I don't know her name. She announced to everyone in line that "we can't let anyone else in at this time", we are having problems with the machines, they are taking blue votes only". We just stood there. No one said anything, we were dumbfounded. She was serious. She wasn't joking there was not laughter or indication that it was anything but dead serious. I waited another 10 minutes and she lets some of us in. I was now inside. She asked us to be patient. After a while she said, we can't get the machines working we have another one on the way. I had already been there a while and I couldn't wait any longer. There was a friend of mine there, Bill Tuttle, Bill's number is 231-350-1127. He decided to leave as well. It was disappointing. In fact i was disgusted.

I returned to Kearney about 4:00 that afternoon. There was no one waiting and the process went smooth but to be candid, I still felt uncomfortable about what we were told by the township official.

The following day I heard about the election results and the votes flipping. The whole thing makes me feel distrustful of the system. I feel there was fraud with the election. There is no other way to look at it. This happened right in front of me. I even heard some of the voter equipment was getting signals over the internet. I will vote again,

but take my voter responsibility seriously but come on people, i want to feel comfortable that there is no voter fraud and this election in 2020 made me feel otherwise. 2020 made me feel that my vote didn't count

This is a true statement to the best of my knowledge. I have not been threatened nor promised anything for making it. I have read and received a copy of this statement sent [kenny\\_fisherman@yahoo.com](mailto:kenny_fisherman@yahoo.com)
